Special Attachments 2014 - 2015

For Forklift

Attachments for BOAT HANDLING BA-172

TEC has a very wide range of attachments for Boat Handling:

From Nylon sleeves for the forks to lift small boats to very sophisticated attachments that include:

- Hydraulic opening to embrace craft from below.
- Negative elevation to load from the water and to leave the boat on the water easily.
- SWL and Length upon request.

Attachments for Container HANDLING BA-012H

- Spreader available for 20ft & 40ft ISO Containers.
- Forklift pockets according to customer requirement.
- Security pins to ensure a safe connexion between the twistlocks and the container.
- The spreader is attached to the forks by a mechanical latching system.
- SWL according to customer requirements.

Attachments for Container LOADING & UNLOADING Containers BA-215

- This "pole" attachment allows you to load and unload a container using a standard truck.
- SWL according to customer requirements
- Lengths available in 6m and 12m.

For Forklift

Attachments for Rolls and Coils Movement BA-141

- The attachment is linked to the Forklift truck using a mechanical latching system.
- The Coil handler can be fixed or can be 180° rotating using the hydraulic power provided from the forklift.
- SWL and Main dimensions are according to customer requirements.

Attachments for Slabs Handling

These attachments are designed to multiply the potential use of the forklifts trucks. We produce these attachments adapted to any Fork size, width and capacity of the forklift.

Attachments for General Cargo

These Attachments are duse to transform any forklift into a multi purpose transporter. SWL upon customer requirements. Designed.

For ReachStacker

Multipurpose Frame with Lower Hook

Multipurpose Beam with Lower Hook

This Frame and this Beam transform any spreader into a Multipurpose transporter with a lower hook for General Cargo. Different configurations, lengths and SWL (Up to 80 Tons) according to customer's use and needs. Parking stand included.

Multipurpose Frame with Lower Coil Handler

As an evolution from the BA-110 (check above these lines) the BA-110CP transform any Spreader for container into a Coilhandler. SWL and sizes are according to customer's use and needs.

Parking stand included.
